Moving forward, new pathways for Murihiku Southland in a constantly changing world

Bibliography

The Beyond 2025 Southland Plan has been developed through key research, existing reports and by commissioning new work (as outlined on p15 of Plan). We would like to acknowledge and thank those we worked alongside to do this. In particular, Professor Etienne Nel, Professor of Geography at University of Otago.

The Bibliography is structured according to sections of the Plan and the page numbers provided refer to the Plan. Some hyperlinks are provided to where reports can be found. As at June 2023 not all reports in this bibliography are available online. Therefore, please contact us if you require more details about a report bobby@beyond2025southland.nz

Many parts of the Plan were informed through discussions with staff members and elected members from the four councils and our region's four Papatipu Rūnaka. Regular updates with the Mayoral Forum, Just Transitions Enduring Oversight Group and Regional Public Service Commission also informed this work.
